

White Perch

Morone americana

**Cleveland
Metroparks®**

ADULT SIZE

Typically 7-12 inches,
Usually weighs
up to one pound.

TYPICAL FOODS

Larval insects,
small fish, eggs
of other fish.

FISHING TIP

The best angling occurs
in spring near shore
and around river mouths.
They are often an
incidental catch by
yellow perch anglers
fishing minnows near
the bottom, or by
walleye anglers using
worm harnesses.
